Subject index

(A) = Abstract

- Abdomen
 - , CT of carcinoid tumors in 240
 - , diffusion-weighted MRI with echo planar imaging of 456
 - , small needle size for fine needle aspiration biopsy of 321
- Abdominal abscess
 - , dropped laparoscopic clip caused 191
- Abdominal hemorrhage
 - , in coagulopathy, CT of 246
- Abdominal pain
 - , from pancreatitis, EUS- vs. CT-guided celiac plexus block for (A) 431
- Abdominal wall
 - , metastases implanted after abdominal percutaneous procedures (A) 205
- Aberrant left gastric vein
 - , pseudolesion in segment II of liver caused by drainage through 357
- Acute abdomen
 - , US of 226
- Acute diverticulitis
 - , management of (A) 429
 - , of small bowel, CT of 452
- Acute flank pain
 - , noncontrast CT and excretory urography for assessing (A) 317
 - , spiral CT and intravenous urogram of (A) 207
- Adenocarcinoma
 - , hepatic, cytokeratins predict location of primary tumor of (A) 206
 - , pancreatic, intratumoral calcification in 610
- Adenomyomatosis
 - , of gallbladder, MRI of 410
- Adenosine
 - , hepatic arterial blood flow volume during infusion of (A) 430
- Adrenal cyst
 - , massive central calcification in 511
- Adrenal incidentaloma
 - , fine needle aspiration biopsy of (A) 207
- Adrenal mass
 - , unknown primary cancer presenting as (A) 207
- Alcohol injection
 - , in percutaneous drainage of renal cysts (A) 432
- Ampullary neoplasms
 - , effect of biliary stent on staging of (A) 528
- Amylase
 - , normal, with elevated lipase not caused by pancreatitis (A) 316
- Amyloidosis
 - , multiple gastric polyps due to 220
- Anal sphincter
 - , endosonographic patterns after repair of 569, 574
 - , high resolution MRI without endocoil of 576, 582
- Anatomy
 - , embryonic development of body cavities 211
 - , of liver, blood flow and variants of 340
- Anemia
 - , GI bleeding from ruptured pseudoaneurysm and 418
- Angiography
 - , CO₂, aorticaval fistula diagnosed by 301
 - , CT, middle mesenteric artery visualized by 556
 - , focal attenuation in pericystic liver seen by 360
 - , of ampullary neoplasms (A) 528
 - , of hepatic dysplastic nodules 250
 - , of hepatic hemangioma with arterioportal shunt 42
 - , of retroperitoneal malignant mesenchymoma 92
- Angiomatous cyst
 - , massive central calcification in 511
- Angioplasty balloon catheter
 - , sphincteroplasty and biliary stone expulsion using 69
- Annular pancreas
 - , imaging features of 174
- Anorectal pain
 - , CT-guided pudendal nerve block for 309
- Aorticaval fistula
 - , diagnosed by CO₂ angiography 301
- Apparent diffusion coefficient
 - , diffusion-weighted MRI with single-shot echo planar imaging evaluated by 456
- Appendicitis
 - , epiploic appendagitis mimicking 129
- Appendix
 - , pseudomyxoma retroperitonei from mucinous carcinoma of 193
 - , ulcerative colitis and discontinuous lesion at mouth of (A) 206
- Arterial phase imaging
 - , of dynamic CT, for detection of hepatocellular carcinoma 473
- Arteriography
 - , CT, focal enhancement in pericystic liver tissue seen in 360
 - , 3D CT, for surgical planning for liver transplantation 278
- Arteriportal fistula
 - , hepatic, after laparoscopic liver biopsy 383
- Arteriportal shunt
 - , in hepatic hemangioma, effect on color Doppler sonography 42
- Ascaris
 - , acute biliary obstruction caused by 470
- Ascaris suum
 - , visceral larva migrans in liver due to 465
- Ascites
 - , extramedullary plasmacytoma as cause of 508
- Axial T2-weighted imaging
 - , compared with thin section oblique axial T2-weighted imaging of uterus 514
- Azygos/hemiazygos continuation
 - , CT of abdominal abnormalities in adults reveal 178
- Bacillus Calmette-Guerin therapy
 - , renal masses caused by 200
- Barium swallow
 - , pharyngoesophagography using 437, 444
- Bile duct cancer
 - , US predicts histologic type of 484
- Bile duct hamartoma
 - , MRI of 171
- Biliary ascariasis
 - , CT and MR cholangiopancreatography of 470
- Biliary sludge
 - , enteral nutrition and (A) 104
- Biliary stent
 - , effect on staging of ampullary neoplasms (A) 528
- Biliary stones
 - , angioplasty balloon catheter through T-tube tract for expulsion of 69
- Biliary tree obstruction
 - , MR cholangiography in diagnosis of (A) 206
- Biopsy
 - , abdominal wall implantation metastases after (A) 205
 - , fine needle aspiration, of incidental adrenal mass (A) 207
 - , fine needle aspiration, small vs. large needle size for 321
 - , image-guided, of renal masses (A) 432
 - , laparoscopic, hepatic arterioportal fistula after 383
 - , US-guided, multiple bile duct hamartomas in liver 171
 - , US-guided, tumor seeding along needle tract after 401

- Bladder cancer
—, hydronephrosis as prognostic indicator in (A) 105
- Bladder trauma
—, spiral CT in evaluating (A) 530
- Blunt trauma
—, injuries to GI tract in children from (A) 315
- Bone scan
—, prostate cancer staging using (A) 105
- Book review
—, endoscopic retrograde cholangiopancreatography 319
—, gastroenterology and hepatology 107
—, gastrointestinal radiology 531
—, intestinal ischemia disorders 107
—, liver cancer 319
- Bowel injury
—, laparoscopic, incidence and clinical presentation of (A) 317
- Budd – Chiari syndrome
—, caused by hepatic venous obstruction by elevated diaphragm 267
- CA125
—, peritoneal serous papillary carcinoma and 78
- Calcification
—, in adrenal cyst, CT of 511
—, intratumoral, in ductal carcinoma of pancreas 610
- Carcinoid tumors
—, abdominal, CT of 240
- Cathartic colon
—, laxative use and 23
- Catheter probes
—, miniaturized US, preoperative staging of esophageal and gastric cancer using (A) 103
- Catheters
—, nephrostomy, CT evaluation and correction of malpositioning of 422
- Caudal migration
—, vaginal, presence of cystocele suggested by 565
- Caudate portal branch
—, giant hyperplasia of caudate lobe and 153
- Cervical carcinoma
—, parametrial invasion by 514
- Cervix
—, endometrial carcinoma invasion of 520
- Children
—, GI tract injuries from blunt trauma in (A) 315
—, Langerhans' cell histiocytosis in 373
—, vesicoureteral reflux in (A) 529
- Cholangiocarcinoma
—, hepatic, lung tumor with hemoptysis presenting as 407
—, intrahepatic, hypervascularity in 66
- Cholangiography
—, MR, biliary tree obstruction diagnosed by (A) 206
—, MR, choledocholithiasis diagnosed by (A) 104
- Cholangiopancreatography
—, MR and MR virtual endoscopy of pancreaticobiliary tract using data sets of 289
- Choledochal cyst
—, pancreaticobiliary carcinoma associated with 292
- Choledocholithiasis
—, HASTE – MR cholangiography of (A) 104
—, MR cholangiography of (A) 206
- Chronic hepatic porphyria
—, multinodular fatty change in liver with 481
- Chronic pancreatitis
—, EUS- vs. CT-guided celiac plexus block for pain from (A) 431
—, pain pattern in (A) 431
—, pancreatic and nonpancreatic cancer risk in (A) 431
- Cirrhosis
—, alcoholic, pancreatic disease in (A) 528
—, colonic wall thickening and 125
—, giant hyperplasia of caudate lobe in 153
—, hepatic arterial blood flow volume in (A) 430
—, response to TIPS for refractory ascites in (A) 430
—, US, CT, and MRI findings of small hepatic nodules in patients with 47
- Closed loop and strangulating obstruction
—, of small bowel, CT of 120
- Coagulopathy
—, CT of abdominal hemorrhage in 246
- Colitis
—, antibiotics and 23
—, nonischemic, drug therapy and 23
- Colon
—, drug-induced disorders of 23
- Colon injury
—, intraabdominal abscess and (A) 103
- Colonic lesions
—, hydrocolonic sonography for diagnosis of 497, 506
—, US-guided fine needle aspiration cytology of (A) 205
- Colonic wall thickening
—, cirrhosis and 125
- Colonoscopy
—, colorectal cancer in inflammatory bowel disease detected by (A) 429
- Color Doppler sonography
—, arterioportal fistula after laparoscopic biopsy found by 383
—, duplex, of septic puerperal ovarian vein thrombosis 85
—, duplex, of solid liver lesions 137
—, of focal intrahepatic extramedullary hematopoiesis 366
—, of gastropiploic vein 228
—, of hepatic hemangioma with arterioportal shunt 42
—, of lymphadenopathy (A) 529
—, of pancreatic carcinoma 295
—, of ruptured pseudoaneurysm 418
—, of solid liver lesions 137
—, of splenic lymphangioma 414
—, of tumor seeding after US-guided liver tumor biopsy 401
—, splenic vein checked for portal tumor thrombus by 585
- Colorectal cancer
—, 3D endoscopic US of 445, 449
—, hepatic and pulmonary metastases in (A) 104
—, inflammatory bowel disease and (A) 429
- Colorectal neoplasms
—, virtual colonoscopy for diagnosis of (A) 205
- Colorectal tumor
—, malignant potential of elevated type of (A) 104
- Common bile duct
—, acute biliary obstruction caused by *Ascaris* in 470
- Common bile duct stones
—, endoscopic sphincterotomy of removal of (A) 104
- Complications
—, abdominal, radiological and pathologic features of intestinal tuberculosis with 32
—, arterioportal fistula after laparoscopic liver biopsy 383
—, gastrointestinal, drug therapy and 1
—, port site metastases after laparoscopic cholecystectomy 404
—, tumor seeding after US-guided liver biopsy 401
- Computed tomographic arteriography
—, three-dimensional, for surgical planning for liver transplantation 278
- Computed tomographic portography
—, percutaneous contrast injection for 272
- Computed tomography
—, biopsy-induced arterioportal shunt causes retention of iodized oil in 165

- , celiac plexus block for chronic pancreatitis guided by (A) 431
- , contrast-enhanced, of acute gastroduodenal peptic ulcer perforation 329
- , double helical, for surgical planning for liver transplantation 278
- , dual-phase helical, of hepatic abnormalities 340
- , dynamic, of hepatocellular carcinoma 473
- , effect of rate and volume of contrast medium injection on hepatic enhancement during 597
- , epiploic appendagitis mimicking appendicitis 129
- , helical, focal attenuation in pericystic liver seen by 360
- , helical, of junctional parenchyma 196
- , helical, of renal lobar dysmorphism 196
- , helical, pelvic congestion syndrome diagnosed by 100
- , hemoperitoneum caused by ruptured ovarian cyst 304
- , incidental finding of intestinal malrotation in adults by 550
- , intraperitoneal fluid in right anterior subphrenic space detected by 614
- , malpositioned nephrostomy catheters detected and corrected by 422
- , modified drip ingestion method of administering oral contrast material for 223
- , necrotic and nonnecrotic small bowel differentiated by 120
- , noncontrast, of acute flank pain (A) 317
- , of abdominal abnormalities in adult polysplenia syndrome revealed by 178
- , of abdominal abscess due to dropped laparoscopic clip 191
- , of abdominal carcinoid tumors 240
- , of abdominal complications of intestinal tuberculosis 32
- , of abdominal hemorrhage in coagulopathy 246
- , of abdominal wall implantation metastases (A) 205
- , of acute biliary obstruction from *Ascaris* 470
- , of ampullary neoplasms (A) 528
- , of annular pancreas 174
- , of colonic wall thickening in cirrhosis 125
- , of disease spread in thoracoabdominal continuum 211
- , of focal intrahepatic extramedullary hematopoiesis 366
- , of gallbladder duplication 285
- , of giant fibrovascular polyp 109
- , of hepatic dysplastic nodules 250
- , of hepatic infarction in preeclampsia 594
- , of hepatic primary malignant fibrous histiocytoma 386
- , of intrahepatic cholangiocarcinoma with hypervascularity 66
- , of macrocystic serous cystadenoma 72
- , of massive central calcification in adrenal cyst 511
- , of necrotic granuloma of liver by fascioliasis 462
- , of pudendal nerve 309
- , of retroperitoneal malignant mesenchymoma 92
- , of ruptured pseudoaneurysm 418
- , of septic puerperal ovarian vein thrombosis 85
- , of small bowel angioedema 117
- , of small bowel diverticulitis 452
- , of splenic hemangiosarcoma 185
- , of splenic lymphangioma 414
- , of transient hepatic attenuation differences in acute pancreatitis 157
- , of well-differentiated hepatocellular carcinoma 392
- , preoperative staging of rectal cancer by (A) 527
- , prostate cancer staging using (A) 105
- , small hepatic nodules in cirrhosis not detected by 47
- , spiral, contrast-enhancement pattern of hepatic hemangioma during 262
- , spiral, liver volume measured by 61
- , spiral, of advanced gastric carcinoma, role of 3D and axial imaging in 111
- , spiral, of blunt renal trauma (A) 105
- , spiral, of inferior mesenteric vein displacement 29
- , spiral, of pancreatic head carcinoma (A) 528
- , spiral, traumatic bladder rupture evaluated by (A) 530
- , spiral, with small bowel loop distention with transparent enema in Crohn's disease 544
- , thin-section spiral, of acute gastroduodenal peptic ulcer perforation 329
- , 3D volume rendering, for nephron sparing surgery (A) 432
- , 3D volume rendering, of liver tumors (A) 528
- , 3D, living kidney donor reconstruction evaluation by (A) 318
- , 3D, of advanced gastric carcinoma 111
- , unenhanced spiral, evaluation of acute flank pain by (A) 207
- , unenhanced, to detect retained calculi after lithotripsy (A) 529
- Computed tomography during arterial portography (CTAP)
 - , focal eosinophilic infiltration mimicking liver metastases on 369
 - , of pseudolesion in segment II of liver 357
 - , perfusion defect in pericystic liver tissue seen on 360
- Computed tomography during hepatic arteriography (CTHA)
 - , focal enhancement in pericystic liver tissue seen in 360
 - , focal eosinophilic infiltration mimicking liver metastases on 369
 - , right hepatic arterial supply of PASIV by 591
- Computer programs
 - , liver volume calculated by 61
- Computer software
 - , interactive imaging of living donor kidney by (A) 318
- Contrast enhancement pattern
 - , of hepatic hemangioma during CT 262
- Contrast media
 - , effect of dose reduction on MRI enhancement of upper abdominal organs 604
 - , effect of rate and volume of injection on hepatic CT enhancement 597
 - , for abdominal CT, modified drip ingestion method for administering 223
 - , for CT portography, intrasplenic injection of 272
 - , small bowel angioedema from 117
- Crohn's disease
 - , abdominal CT with small bowel loop distention with transparent enema in 544
 - , low field MRI of treatment response, extension, and activity of 232
 - , mesenteric adipose tissue hypertrophy in (A) 527
 - , perforating ileocecal, natural history (A) 429
 - , recurrence after small bowel resection and jejunocolostomy 538
- Cubic spline algorithm
 - , liver volume calculated using 61
- Cystic renal cell carcinoma
 - , resection of (A) 318
- Cytomegalovirus proctitis
 - , in nonimmunosuppressed diabetes mellitus patient 39
- Defecography
 - , vaginal opacification during 562, 565
- Diabetes mellitus
 - , cytomegalovirus proctitis in patient with 39
- Diagnostic accuracy
 - , of small vs. large needle in fine needle aspiration biopsy 321
- Diagnostic rate
 - , of small vs. large needle in fine needle aspiration biopsy 321
- Dicyclomine
 - , peristaltic artifacts on MRI reduced by 336
- Diffusion-weighted magnetic resonance imaging
 - , with single-shot echo-planar imaging of abdomen 456
- Disease spread
 - , between abdomen and thorax, CT of 211
- Disseminated peritoneal plasmacytoma
 - , after cardiac transplantation 508
- Diverticulitis
 - , acute, of small bowel, CT of 452
 - , uncomplicated acute, management of (A) 429
- Doxycycline
 - , esophageal injury caused by 3

- Drug therapy
 —, colon disorders caused by 23
 —, esophageal injury and 3
 —, gastrointestinal complications and. 1
 —, small bowel disorders caused by 17
 —, stomach and duodenum disorders induced by 9
 Duodenal ulcer
 —, sonographic diagnoses of 226
 Duodenum
 —, drug-induced disorders of 9
 Dysphagia
 —, oblique pharyngogram in assessment of 437, 444
 Ectopic pregnancy
 —, incidentally found by hysterosalpingography. 98
 Embryology
 —, development of body cavities in 211
 Endometrial carcinoma
 —, cervical invasion by 520
 Endoscopic retrograde cholangiopancreatography (ERCP)
 —, of annular pancreas 174
 —, pancreatitis and parenchymal abnormalities detected by (A) 528
 —, retroperitoneal air after (A) 430
 Endoscopic sphincterotomy
 —, common bile duct stone removal by (A) 104
 Endoscopic ultrasonography
 —, of ampullary neoplasms (A) 528
 —, of gastrinomas and insulinomas (A) 206
 —, pancreatitis and parenchymal abnormalities detected by (A) 528
 Endosonography
 —, after anal sphincter repair 569, 574
 Endothelial cyst
 —, massive central calcification in 511
 Enhancement patterns
 —, MR of hepatic hemangioma 147
 Enteral nutrition
 —, biliary sludge formation during (A) 104
 Epiploic appendagitis
 —, ultrasound mimicry of appendicitis 129
 Esophageal cancer
 —, 3D endoscopic US of 445, 449
 Esophagitis
 —, drug therapy and 3
 Esophagus
 —, drug-induced disorders of 3
 —, giant fibrovascular polyp of 109
 Excretory urography
 —, of acute flank pain (A) 317
 —, of ureteric ring 426
 —, upper urinary tract trauma evaluated by (A) 433
 Extramedullary hematopoiesis
 —, color Doppler US and CT of 366
 Familial amyloid polynuropathy
 —, multiple gastric polyps in 220
 Fascioliasis
 —, necrotic granuloma of liver by 462
 Fatty infiltration
 —, in liver with chronic hepatic porphyria 481
 Fibrovascular polyp
 —, esophageal, CT and MR of 109
 Fine needle aspiration biopsy
 —, of incidental adrenal mass (A). 207
 —, small vs. large needle size for 321
 Fine needle aspiration cytology
 —, US-guided, colonic lesions diagnosed by (A) 205
 Foreign body
 —, CT of intraabdominal abscess reveals 191
 Gallbladder adenomyomatosis
 —, MRI of 410
 Gallbladder cancer
 —, association of polyps and stones with (A) 316
 —, port site metastases after laparoscopic cholecystectomy for 404
 Gallbladder duplication
 —, CT, US, and oral cholecystography of 285
 Gallstones
 —, risk of gallbladder cancer and (A) 316
 Gastrectomy
 —, modified drip ingestion method for CT contrast material after. 223
 Gastric carcinoma
 —, 3D and axial imaging by spiral CT of 111
 Gastrinoma
 —, endoscopic US and somatostatin receptor scintigraphy preoperative imaging of (A) 206
 Gastroduodenal peptic ulcer
 —, contrast-enhanced and thin section spiral CT of. 329
 Gastroepiploic vein
 —, color Doppler sonography of 228
 Gastrointestinal bleeding
 —, in intestinal tuberculosis, intestinal, radiologic and pathologic features of 32
 Gastrointestinal cancer
 —, portal tumor thrombus caused by 585
 Gastrointestinal complications
 —, drug therapy and 1
 Gastrointestinal hemorrhage
 —, in inflammatory bowel disease (A) 315
 Gastrointestinal tract injury
 —, blunt trauma in children and (A) 315
 Gastrointestinal tumors
 —, 3D endoluminal ultrasound of 445, 449
 Glucocorticoids
 —, MRI of response in Crohn's disease to treatment by 232
 Half Fourier acquisition single-shot turbo spin-echo (HASTE)
 —, choledocholithiasis diagnosed by (A). 104
 Heart transplantation
 —, disseminated peritoneal plasmacytoma after 508
 HELLP syndrome
 —, hepatic infarction in preeclampsia as part of. 594
 Hemangiosarcoma
 —, splenic tumor with massive calcification diagnosed as 185
 Hemoperitoneum
 —, from ovarian cyst rupture, imaging features of 304
 Hemoptysis
 —, cholangiocarcinoma presenting as lung mass with 407
 Hepatic abscess
 —, after transhepatic drainage of subphrenic abscess 163
 Hepatic adenocarcinoma
 —, cytokeratins predict location of primary tumor of (A) 206
 Hepatic arterial blood flow volume
 —, cirrhosis and (A) 430
 Hepatic blood flow
 —, dual-phase helical CT of hepatic abnormalities related to 340
 Hepatic cholangiocarcinoma
 —, hypervascularity in 66
 —, lung tumor with hemoptysis presenting as 407
 Hepatic dysplastic nodules
 —, US, CT, MRI, and angiography of 250
 Hepatic fascioliasis
 —, necrotic granuloma of liver by 462

- Hepatic hemangioma
 —, enhancement pattern during arterial and portal spiral CT of . . . 262
 —, mimicked by chemotherapy-treated liver metastases on MRI . . . 378
 —, MRI with intense arterial enhancement and early fading . . . 147
 —, with arterioportal shunt, color Doppler sonograms and angiography of . . . 42
- Hepatic nodular regenerative hyperplasia
 —, US, CT, and MRI of . . . 258
- Hepatic parenchymal damage
 —, after ethanol injection therapy, MRI of . . . 56
- Hepatic venous obstruction
 —, caused by elevated hemidiaphragm . . . 267
- Hepatitis C
 —, abdominal lymphadenopathy and (A). . . 315
- Hepatobiliary tumors
 —, CT portography for preoperative assessment of . . . 272
- Hepatocellular carcinoma
 —, false positive from iodized oil retention . . . 165
 —, intraperitoneal seeding from rupture of . . . 398
 —, optimal phase of dynamic CT for detection of . . . 473
 —, parenchymal damage after PEI therapy for . . . 56
 —, PTH-producing, treated by transcatheter arterial embolization . . . 144
 —, US, CT, and MRI of . . . 392
 —, US, CT, and MRI of small hepatic nodules in cirrhotic patients suspected with . . . 47
- Hydrocolonic sonography
 —, of colonic lesions . . . 497, 506
- Hydronephrosis
 —, bladder cancer staging by (A). . . 105
- Hypercalcemia
 —, hepatocellular carcinoma and . . . 144
- Hysterosalpingography
 —, diagnosis of chronic ectopic gestation by . . . 98
- Ileocecal disease
 —, natural history of (A) . . . 429
- Image processing
 —, of 2D EUS images into 3D images on PC-based 3D workstation . . . 445, 449
- Indinavir sulfate
 —, radiographic image of calculi caused by (A). . . 432
- Inferior mesenteric vein
 —, spiral CT of anterior and upward displacement of in paraduodenal hernia . . . 29
- Inflammatory bowel disease
 —, colorectal cancer and (A) . . . 429
 —, gastrointestinal hemorrhage in (A) . . . 315
 —, pancreatic enzymes in (A) . . . 430
- Insulinoma
 —, endoscopic US and somatostatin receptor scintigraphy preoperative imaging of (A) . . . 206
- Intestinal dysmotility
 —, drug therapy and . . . 17
- Intestinal hemorrhage
 —, drug therapy and . . . 17
- Intestinal ischemia
 —, drug therapy and . . . 17
- Intestinal malrotation
 —, incidental CT finding in adults . . . 550
- Intestinal tuberculosis
 —, with abdominal complications, radiologic and pathologic features of . . . 32
- Intestinal ulceration
 —, drug therapy and . . . 17
- Intraabdominal abscess
 —, impact of stomach and colon injuries on (A) . . . 103
- Intraductal papillary mucinous tumors
 —, pancreatic, nonpancreatic neoplasms and (A) . . . 317
- Intraperitoneal fluid
 —, in right anterior subphrenic space . . . 614
- Intraperitoneal seeding
 —, hepatocellular carcinoma rupture and . . . 398
- Intravenous urogram
 —, evaluation of acute flank pain by (A). . . 207
- Intussusception
 —, in Peutz – Jeghers syndrome, sonographic detection of . . . 333
- Iodized oil retention
 —, in computed tomography, diagnosed as false positive HCC lesion . . . 165
- Ischemic colitis
 —, caused by oral contraceptives . . . 23
- Jejunocolonic anastomosis
 —, recurrence of Crohn's disease after . . . 538
- Jejunum
 —, CT of acute diverticulitis in . . . 452
- Junctional parenchyma
 —, CT of renal lobar dysmorphism and . . . 196
- Kidney
 —, dynamic enhancement during MRI of . . . 604
 —, management of stab wounds of (A) . . . 317
- Kidney donor
 —, living, 3D CT reconstruction evaluation of (A) . . . 318
- Kidney stones
 —, retained after percutaneous ultrasonic lithotripsy (A) . . . 529
- Langerhans' cell histiocytosis
 —, periportal abnormal signal intensity on MRI of . . . 373
- Laparoscopic adjustable silicone gastric banding
 —, radiological appearances of . . . 533
- Laparoscopic cholecystectomy
 —, abdominal abscess from dropped clip from . . . 191
 —, port site metastases after . . . 404
- Laparoscopy
 —, bowel injury from (A) . . . 317
- Late phase imaging
 —, of dynamic CT, for detection of hepatocellular carcinoma . . . 473
- Laxatives
 —, cathartic colon caused by . . . 23
- Leiomyoma round ligament
 —, in Mayer–Rokitansky–Kuster–Hauser syndrome. . . 202
- Lipase
 —, elevated, with normal amylase not caused by pancreatitis (A). . . 316
- Liver
 —, acute pancreatitis and abnormalities in . . . 157
 —, arterioportal fistula after laparoscopic biopsy of . . . 383
 —, cirrhotic, caudate hyperplasia in . . . 153
 —, CTAP of pseudolesion in segment II of . . . 357
 —, dynamic enhancement during MRI of . . . 604
 —, effect of rate and volume of contrast medium injection on CT enhancement of . . . 597
 —, imaging features of primary malignant fibrous histiocytoma of . . . 386
 —, iodized oil retention from postbiopsy arterioportal shunt in . . . 165
 —, Langerhans' cell histiocytosis in . . . 373
 —, multinodular fatty change in . . . 481
 —, serous cystic neoplasm in . . . 75
 —, subphrenic abscess drainage causes abscess in . . . 163
- Liver abnormalities
 —, dual-phase helical CT of . . . 340
- Liver disease
 —, superior mesenteric artery impedance in (A). . . 103
- Liver infarction
 —, in preeclampsia as part of HELLP syndrome . . . 594

- Liver infection
 —, CT, MRI, radioisotopic scanning, and laparoscopy of 465
 —, CT, US, and MRI of 462
- Liver masses
 —, color Doppler vs. CT of 366
- Liver metastases
 —, chemotherapy-treated, mimicking hemangiomas on MRI 378
 —, cytokeratins predict location of primary tumor of (A) 206
 —, focal eosinophilic infiltration mimicking 369
 —, nodular regenerative hyperplasia mimicking 258
 —, of colorectal carcinoma (A) 104
- Liver neoplasms
 —, characterized as Von Meyenburg complexes by MRI 171
 —, color and pulsed Doppler imaging of 137
 —, imaging features of 386
 —, in cirrhosis, US, CT, and MRI findings of 47
 —, mimicking hepatic metastases 258
- Liver transplantation
 —, double helical CT and 3D CT arteriography for planning of 278
- Liver tumors
 —, 3D CT of (A) 528
- Liver volume
 —, spiral CT and curved line and cubic spline algorithms for measurement of 61
- Lung cancer
 —, small bowel metastases from (A) 527
- Lung metastases
 —, of colorectal carcinoma (A) 104
- Lung tumor
 —, hepatic peripheral cholangiocarcinoma and 407
- Lymph node metastases
 —, of prostate cancer, lymph node size as marker for (A) 318
- Lymphadenopathy
 —, abdominal, chronic hepatitis C and (A) 315
- Lymphangioma
 —, splenic, US and CT of 414
- Lymphadenopathy
 —, high resolution pulsed and color Doppler US of (A) 529
- Macrocytic serous cystadenoma
 —, pancreatic, CT and endosonographic features of 72
- Magnetic resonance angiography
 —, of septic puerperal ovarian vein thrombosis 85
- Magnetic resonance cholangiography
 —, biliary tree obstruction diagnosed by (A) 206
 —, choledocholithiasis diagnosed by (A) 104
- Magnetic resonance cholangiopancreatography
 —, of acute biliary obstruction from *Ascaris* 470
 —, of pancreaticobiliary carcinoma with choledochal cyst 292
- Magnetic resonance imaging
 —, abdominal, effect of dicyclomine dose on reduction of peristaltic artifacts on 336
 —, Budd - Chiari syndrome detected by 267
 —, chemotherapy-treated liver metastases mimicking hemangiomas on 378
 —, diffusion-weighted, of abdomen 456
 —, dynamic enhancement of upper abdominal organs with 604
 —, high resolution, of anorectal region 576, 582
 —, low field, evaluation of treatment of Crohn's disease by 232
 —, of abdominal abnormalities in adults, polysplenia syndrome revealed by 178
 —, of acute biliary obstruction from *Ascaris* 470
 —, of ampullary neoplasms (A) 528
 —, of atypical hepatic hemangioma 147
 —, of bile duct hamartoma 171
 —, of cervical invasion by endometrial carcinoma 520
 —, of fan-shaped hepatic parenchymal damage 56
 —, of gallbladder adenomyomatosis 410
 —, of giant fibrovascular polyp 109
 —, of hepatic dysplastic nodules 250
 —, of hepatic Langehans' cell histiocytosis 373
 —, of hepatic primary malignant fibrous histiocytoma 386
 —, of intrahepatic cholangiocarcinoma with hypervascularity 66
 —, of massive central calcification in adrenal cyst 511
 —, of necrotic granuloma of liver by fascioliasis 462
 —, of pancreaticobiliary carcinoma with large choledochal cyst 292
 —, of parametrial invasion by cervical carcinoma 514
 —, of pseudomyxoma retroperitonei with skin fistula 193
 —, of retroperitoneal malignant mesenchymoma 92
 —, of round ligament leiomyoma 202
 —, of splenic hemangiosarcoma 185
 —, of well-differentiated hepatocellular carcinoma 392
 —, preoperative staging of rectal cancer by (A) 527
 —, prostate cancer staging using (A) 105
 —, small hepatic nodules in cirrhosis not detected by 47
- Magnetic resonance urography
 —, hematuria diagnosed and treated by (A) 105
- Magnetic resonance virtual endoscopy
 —, of pancreaticobiliary tract 289
- Malignant fibrous histiocytoma
 —, hepatic, CT, US, MRI, and arteriography of 386
 —, mimicking cystic pancreatic mass 299
- Mayer-Rokitansky-Kuster-Hauser syndrome
 —, round ligament leiomyoma with 202
- Meckel's diverticulitis
 —, CT of 452
- Mesenteric adipose tissue hypertrophy
 —, in Crohn's disease (A) 527
- Mesenteric vein thrombosis
 —, drug therapy and 17
- Metastases
 —, abdominal wall implantation after percutaneous procedures (A) 205
- Middle mesenteric artery
 —, CT angiography of 556
- Morbid obesity
 —, laparoscopic adjustable silicone gastric banding for 533
- Nephron sparing surgery
 —, 3D CT for preoperative evaluation for (A) 432
- Nephrostomy
 —, CT evaluation and guided correction of malpositioned catheters in 422
- Nerve block technique
 —, CT-guided pudendal neuralgia treated by 309
- Nonpancreatic neoplasms
 —, intraductal papillary mucinous tumors of pancreas and (A) 317
- Nonsteroidal antiinflammatory drugs
 —, esophageal injury caused by 3
 —, gastrointestinal mucosal injury caused by 9
- Obstruction
 —, intestinal, radiologic and pathologic features of 32
- Oral cholecystography
 —, of gallbladder duplication 285
- Oral contraceptives
 —, colon disorders caused by 23
 —, ischemic enteritis and mesenteric vein thrombosis caused by 17
- Ovarian cyst
 —, hemoperitoneum after rupture of 304
- Pancreas
 —, dynamic enhancement during MRI of 604
 —, macroscopic serous cystadenoma of 72

- , nonpancreatic neoplasms and intraductal papillary mucinous tumors of (A) 317
- , serous cystic neoplasm in 75
- , short, CT of abdominal abnormalities in adults reveal 178
- Pancreatic cancer
 - , chronic pancreatitis and risk for (A) 431
 - , color Doppler sonography of 295
 - , intratumoral calcification in 610
- Pancreatic enzymes
 - , inflammatory bowel disease and (A) 430
- Pancreatic head carcinoma
 - , spiral CT for preoperative staging of (A) 528
- Pancreatic pseudocyst
 - , malignant fibrous histiocytoma presenting as 299
- Pancreaticobiliary carcinoma
 - , with choledochal cyst, MRI and MR cholangiopancreatography of 292
- Pancreaticobiliary tract
 - , MR virtual endoscopy of 289
- Pancreatitis
 - , acute hepatic perfusion abnormalities in 157
 - , alcoholic cirrhosis and (A) 528
 - , chronic, EUS- vs. CT-guided celiac plexus block for pain from (A) 431
 - , chronic alcoholic, pain pattern in (A) 431
 - , GI bleeding from ruptured pseudoaneurysm in patient with 418
 - , normal amylase and elevated lipase not caused by (A) 316
 - , rupture into portal venous system of pseudocyst in 494
 - , spontaneous thrombosis of pseudoaneurysm complicating 491
- Pancreatobiliary carcinoma
 - , portal venous invasion by (A) 316
- Papillary adenocarcinoma
 - , intraductal US predicts bile duct cancer as 484
- Paraduodenal hernia
 - , anterior and upward displacement of inferior mesenteric vein associated with 29
- Peliosis
 - , effect on CT and MRI of hepatic nodular regenerative hyperplasia 258
- Pelvic congestion syndrome
 - , helical CT of 100
- Pelvis
 - , small needle size for fine needle aspiration biopsy of 321
- Penetrating trauma
 - , noncontrast CT vs. excretory urography for assessing (A) 317
 - , to colon and stomach, intraabdominal abscess and (A) 103
- Peptic ulcer perforation
 - , contrast-enhanced and thin section spiral CT of 329
- Percutaneous drainage
 - , of renal cysts (A) 432
- Percutaneous ethanol injection (PEI) therapy
 - , hepatic parenchymal damage caused by 56
- Percutaneous transhepatic drainage
 - , hepatic abscess along track of 163
- Percutaneous ultrasonic lithotripsy
 - , unenhanced CT to detect retained calculi after (A) 529
- Perforation
 - , intestinal, radiologic and pathologic features of 32
- Peristaltic artifacts
 - , of abdominal MRI reduced by dicyclomine 336
- Peritoneal serous papillary carcinoma
 - , radiological appearance of 78
- Peritonitis
 - , encapsulating, ileal obstruction caused by 82
 - , sclerosing, ileal obstruction caused by 82
- Peroxisome proliferator-activated receptor γ
 - , role in mesenteric fat hypertrophy in Crohn's disease (A) 527
- Peutz - Jeghers syndrome
 - , sonographic detection of intussusception in 333
- Pharynx
 - , oblique pharyngogram of 437, 444
- Pneumatosis cystoides intestinalis
 - , US of 559
- Polyps
 - , gastric, in familial amyloid polyneuropathy 220
- Polysplenia syndrome
 - , CT of abdominal abnormalities in adults reveal 178
- Porphyria
 - , chronic hepatic, multinodular fatty change in liver with 481
- Port site metastases
 - , after laparoscopic cholecystectomy for gallbladder carcinoma 404
- Portal hemodynamics
 - , in chronic liver disease (A) 103
- Portal hypertension
 - , colonic wall edema in cirrhosis and 125
- Portal tumor thrombus
 - , gastrointestinal cancer as cause of 585
- Portal venous invasion
 - , by pancreatobiliary carcinoma (A) 316
- Portal venous system
 - , pancreatic pseudocyst rupture into 494
- Portography
 - , CT, by direct intrasplenic contrast injection 272
- Posterior aspect of segment IV
 - , right hepatic arterial supply to 591
- Posttransplant lymphoproliferative disorders
 - , in post-heart transplant patient 508
- Potassium chloride
 - , esophageal injury caused by 3
 - , gastrointestinal mucosal injury caused by 9
- Preeclampsia
 - , CT of hepatic infarction in 594
- Preoperative assessment
 - , for nephron sparing surgery by 3D CT (A) 432
 - , of hepatobiliary tumors by CT portography 272
 - , of pancreatic carcinoma 295
 - , of pancreatobiliary carcinoma with MRI and MR cholangiopancreatography 292
 - , of rectal cancer by transrectal US, pelvic CT, and MRI (A) 527
 - , of resectable pancreatic head carcinoma (A) 528
- Primary sclerosing cholangitis
 - , elevated pancreatic enzymes in IBD and (A) 430
- Prostate cancer
 - , fatal, increase in before PSA testing (A) 207
 - , imaging tests for staging of (A) 105
 - , lymph node size and metastases of (A) 318
- Pseudoaneurysm
 - , gastrointestinal bleeding from rupture of 418
 - , pancreatic, spontaneous thrombosis of 491
- Pseudocyst
 - , pancreatic, rupture into portal venous system of 494
- Pseudolesion
 - , caused by aberrant left gastric venous drainage 357
- Pseudomyxoma retroperitonei
 - , skin fistula formation in 193
- Psychoactive drugs
 - , bowel hypomotility caused by 23
- Pudendal nerve
 - , chronic anoperineal pain caused by compression of 309
- Pulsed Doppler sonography
 - , of solid liver lesions 137

- Quinidine
—, esophageal injury caused by 3
- Radiologic images
—, after laparoscopic adjustable silicone gastric banding 533
—, of recurrent Crohn's disease in duodenal and jejunum 538
- Rectal carcinoma
—, stenotic, water enema transvaginal ultrasound for staging of 132
- Rectum
—, diabetes mellitus patient with cytomegalovirus in 39
- Refractory ascites
—, response to TIPS for (A) 430
- Renal cell carcinoma
—, cystic, resection of (A) 318
- Renal cysts
—, percutaneous drainage with alcohol injections of (A) 432
- Renal lobar dysmorphism
—, helical CT of 196
- Renal masses
—, granulomatosis, after Bacillus Calmette-Guérin therapy 200
—, imaging guided biopsy of (A) 432
- Renal trauma
—, spiral CT limitations in (A) 105
- Retroperitoneal air
—, after ERCP with sphincterotomy (A) 430
- Retroperitoneal malignant mesenchymoma
—, US, CT, MR, and angiography of 92
- Right anterior subphrenic space
—, intraperitoneal fluid detected by CT of 614
- Right hepatic artery
—, posterior aspect of segment IV of liver supplied by 591
- Salicylate
—, gastrointestinal mucosal injury caused by 9
- Septic puerperal ovarian vein thrombosis
—, duplex color Doppler US, CT, and MR angiography in diagnosis of 85
- Serous cystadenoma
—, in pancreas and liver, aggressive behavior of 75
—, macrocystic, versus mucinous cystadenoma 72
- Serous cystic neoplasms
—, —, in pancreas and liver, aggressive behavior of 75
- Sickle cell disease
—, heterozygote, splenic calcifications in 188
- Sickle thalassemia
—, splenic calcifications in 188
- Signal:intensity ratio
—, diffusion-weighted MRI with single-shot echo planar imaging evaluated by 456
- Single shot echo planar imaging
—, diffusion-weighted MRI with 456
- Skin fistula
—, pseudomyxoma retroperitonei causing 193
- Small bowel
—, abdominal spiral CT after distention of in Crohn's disease 544
—, closed loop and strangulating obstruction of 120
—, CT of acute diverticulitis in 452
—, drug-induced disorders of 17
—, short, recurrence of Crohn's disease in after resection of 538
- Small bowel angioedema
—, from iodinated radiographic contrast medium 117
- Small bowel metastases
—, from lung cancer (A) 527
- Small bowel obstruction
—, sclerosing encapsulating peritonitis and 82
- Somatostatin receptor scintigraphy
—, of gastrinomas and insulinomas (A) 206
- Sphincteroplasty
—, anal endosonography after 569, 574
—, with angioplasty balloon catheter through immature T-tube tract 69
- Sphincterotomy
—, endoscopic, common bile duct stone removal by (A) 104
—, retroperitoneal air after ERCP with (A) 430
- Spleen
—, CT portography by direct contrast injection into 272
—, dynamic enhancement during MRI of 604
- Splenic artery
—, tortuosity of 313
- Splenic calcification
—, in heterozygote sickle cell patients 188
- Splenic hemangiosarcoma
—, massive calcification in 185
- Splenic lymphangioma
—, US and CT of 414
- Splenic vein thrombosis
—, sonography of gastroepiploic vein associated with 228
- Stomach
—, adjustable gastric banding of 533
—, drug-induced disorders of 9
- Stomach injury
—, intraabdominal abscess and (A) 103
- Subserous space
—, embryological basis and direct spread of disease in 211
- Superior mesenteric artery impedance
—, in chronic liver disease (A) 103
- Superior mesenteric vessels
—, intestinal malrotation and abnormalities in 550
- Surgical planning
—, double helical CT and 3D CT arteriography for 278
- Testicular microlithiasis
—, pathological criteria for (A) 106
- Tetracycline
—, esophageal injury caused by 3
- Thin section oblique axial T2-weighted imaging
—, of cervical invasion by endometrial carcinoma 520
—, of parametrial invasion by cervical carcinoma 514
- Thoracoabdominal continuum
—, embryological basis and direct spread of disease in 211
- Three-dimensional ultrasonographic imaging
—, of GI tumors 445, 449
- Thrombosis
—, of pseudoaneurysm complicating pancreatitis 491
- Transcatheter arterial embolization (TAE)
—, PTH-producing hepatocellular carcinoma treated by 144
- Transendoscopic ultrasonography
—, of esophageal and gastric cancer (A) 103
- Transient hepatic attenuation difference (THAD)
—, computed tomography appearance of 157
- Transitional cell carcinoma
—, ureteral, renal masses after BCG therapy for 200
- Transjugular intrahepatic portosystemic shunt (TIPS)
—, for refractory ascites in cirrhosis (A) 430
- Transvaginal ultrasound (TVUS)
—, stenotic rectal carcinoma staged by 132
- Trauma
—, upper urinary tract, excretory urography for (A) 433
- T-tube
—, indwelling, sphincteroplasty and biliary stone expulsion using tract of 69
- Tubercular colitis
—, hydrocolonic sonography of 497, 506

- Tumor response
 —, Miller's criteria for measurement of 618
- Tumor seeding
 —, after US-guided liver biopsy 401
 —, hepatocellular carcinoma rupture and 398
- Ulcerative colitis
 —, discontinuous lesions at appendix mouth and (A) 206
 —, hydrocolonic sonography of 497, 506
- Ultrasonography
 —, abdominal lymphadenopathy in chronic hepatitis C evaluated by (A). 315
 —, acute duodenal ulcer diagnosed by 226
 —, duplex color Doppler, of septic puerperal ovarian vein thrombosis 85
 —, endoscopic, celiac plexus block for chronic pancreatitis guided by (A) 431
 —, endoscopic, of ampullary neoplasms (A). 528
 —, endoscopic, of gastrinomas and insulinomas (A) 206
 —, endoscopic, pancreatitis and parenchymal abnormalities detected by (A) 528
 —, epiploic appendagitis mimicking appendicitis 129
 —, hemoperitoneum caused by ruptured ovarian cyst 304
 —, high resolution pulsed, of lymphadenopathy (A) 529
 —, intraductal, of bile duct cancer 484
 —, intussusception in Peutz – Jeghers syndrome detected by 333
 —, of gallstones and polyps (A) 316
 —, of hepatic dysplastic nodules 250
 —, of hepatic primary malignant fibrous histiocytoma 386
 —, of idiopathic sclerosing encapsulating peritonitis 82
 —, of multinodular fatty change in liver 481
 —, of necrotic granuloma of liver by fascioliasis 462
 —, of pancreatobiliary carcinoma and portal venous invasion (A). 316
 —, of pneumatosis cytoidea intestinalis 559
 —, of retroperitoneal malignant mesenchymoma 92
 —, of small hepatic nodules in cirrhosis 47
 —, of splenic lymphangioma 414
 —, of well-differentiated hepatocellular carcinoma 392
 —, 3D endoscopic, of GI tumors 445, 449
 —, transendoscopic, of esophageal and gastric cancer (A) 103
 —, transrectal, preoperative staging of rectal cancer by (A) 527
 —, transvaginal, stenotic rectal carcinoma staged by 132
- Ultrasound-guided liver biopsy
 —, multiple bile duct hamartomas diagnosed by. 171
 —, tumor seeding along needle tract after 401
- Upper gastrointestinal radiography
 —, duodenal narrowing at annular pancreas seen by 174
- Ureteric ring
 —, radiologic features of 426
- Ureterolithiasis
 —, diagnosed by unenhanced spiral CT (A) 207
- Urography
 —, excretory, of acute flank pain (A). 317
 —, excretory, of ureteric ring 426
 —, excretory, upper urinary tract trauma evaluated by (A). 433
 —, intravenous, evaluation of acute flank pain by (A) 207
 —, MR, hematuria diagnosed and treated by (A) 105
- Uterine neoplasms
 —, thin section oblique axial T2-weighted images of 514
- Vaginal opacification
 —, during defecography, pelvic floor pathology and 565
 —, folded gauze in introitus during defecography of 562
- Vesicoureteral reflux
 —, in children, color flow sonography of (A) 529
- Virtual colonoscopy
 —, colorectal neoplasms detected by (A). 205
- Virtual endoscopy
 —, MR, of biliary tract. 289
- Visceral larva migrans
 —, *Ascaris suum* infection as cause of 465
- Von Meyenburg complexes
 —, MRI of 171
